The add-in's simple interface. Not to be confused with the defunct Small Coin Adder.The Money Maker is an add-in with a functionality similar to older standalone Club Penguin Money Makers, like the cpcheats.co money maker.The user can put in any amount of coins, and the add-in will add them. Large amounts of coins will take longer to add. It is not recommended to add very large amounts of coins (100 000+) to avoid getting banned.Email ThisBlogThis!Share to XShare to FacebookShare to PinterestThe only way to get 100,000 coins on Club Penguin is to go to amoney maker that has no virus. Try typing in on Google 'ClubPenguin Money Maker' and look for a money maker that has no virus.I cannot recommend one because I don't use them.Credit goes to Watex for this post.Update: Make sure you check the post again. I have updated and added some info for some of the features.Club Penguin has finally launched a whole bunch of new features!FEATURE #1 New Server Selection First off, you have to retype in all your information because your saved data for log-in was probably erased. The first thing I noticed was the orange sign that said Please do not save password in a school or library computer had changed. And when you log in with an already saved penguin, the penguin loads his/her clothing differently. As for the actual server selection, it groups your Suggested Servers by which you go on most and the ones your buddies are on. CP also changed it so that all the servers are grouped alphabetically and they took out the countries. Thats not something I like the best. We might have to do another server swap from Flippers. Ill think about it once things settle down. But for now, Im still going on Flippers as much as possible.FEATURE #2 Penguin Mail The most obvious one to get to next, of course! Its located on the upper left of the screen when you log in. P-Mail allows you to save, delete, or reply to postcards sent to you by your buddies. You can also send postcards to your buddies even if theyre not online. The envelope on the top left also displays a number for the amount of unread postcards. If the envelope has a smiley face, its a buddy request. And the layout that displays all the postcards you can send has now changed. I would definitely rather have it so that you can send postcards to any penguin you want, online or offline, just as long as they dont have a full mailbox. Ive only gotten around 5 postcards total so far.Also, theres a free item you can get. Go to the very first postcard you have. Click on the blue bag. You will get a Blue Messenger Bag that you can wear! Penguins created after the update do not get the bag.FEATURE #3 Playercard Sort To begin with, CP made it so that ALL your items are now in one tab, not two. They used to group it so that your clothing items and medals would be in one tab. And your colors, pins, and backgrounds in another. I liked the old method better. However, it is easier to find clothing items using the new format by just using the Playercard Sort to just jump to your type of item.FEATURE #4 Igloo Background This is one of the updates that I like with no drawbacks whatsoever. The igloo is given a nice, foresty background rather than the blank, bland, and white background even members had to have. The forest goes away in Edit Mode. And the Done icon has been replaced with a Save Igloo disk icon.OTHER NEW FEATURESFEATURE #5 Member Igloos Map When you click on the Members Igloos on the Map, it expands to the map below. Displaying all the igloos available and their owners names when you hover your mouse over one. Unlike before, there is probably a maximum number of igloos per server. Update: CP has announced they will make it so you can view the members igloos in a list too if you want to. Itll be available in the future.FEATURE #6 Spyphone The spyphone is now located in your bottom left, if youre a secret agent. It allows you to teleport, play with the Tools, and Visit the HQ, just like in a mission.FEATURE #7 Green Puffle The Green Puffle has left the Night Club and is now playing around in the Ice Rink. And with the Green Puffle constantly playing with the puck, no one can play Hockey! I wonder why they did this? Update: CP has announced that this feature will be temporary. The rink will be back to normal, so enjoy the Puffle while hes here. You will be able to play Hockey once again in the future.FEATURE #8 Buddy Log-In If a buddy logs into the server youre in when youre in Club Penguin, a dialog box will pop out of the Buddy button in your toolbar that says [Buddys Name here] is onlineFEATURE #9 Puffle Mail It looks like your puffle can send you mail too. And when you adopt a puffle, they send you a postcard. In the pic below, Watex is my puffles name.FEATURE/BUG #10 Blank Chat If you press the spacebar and then enter, youll get a blank chat bubble. FEATURE #11 Puffle Stats You can no longer see the puffles stats or name of another penguins igloo.FEATURE #12 Sled Racing/Find Four/Mancala List The loading list has changed slightly when youre waiting for players.FEATURE #13 Finding a Buddy The Find Buddy button on your buddys playercard has changed to a question mark.FEATURE/GLITCH #14 Reading the Paper Backwards First, sit sideways, face up, or dance. Then open your newspaper. Youll be reading it all wrong or not reading it at all. Go to the Dojo to see yourself doing this while reading the newspaper.FEATURE/GLITCH #15 Talking (Thanks to Katy817) If someones talking behind you and your speech bubble is blocking theirs, no matter how much they talk, it wont come in front of your own speech bubble.FEATURE/GLITCH #16 UNLIMITED BUDDIES Probably my favorites glitch. For that reason, Ive been on Flippers Dock for a long time now, accepting almost anyone who requests to buddy me!FEATURE/GLITCH #17 Ski Hill The Mountain is now called Ski Hill when you hover your cursor over it on the Map. However, when you go to it, it says Loading MountainFEATURE/GLITCH #18 Zoom in If you right click anywhere at anytime, then select Zoom in, you can zoom in to view ultra large penguins. You can click, hold, and drag to move around.FEATURE/GLITCH #19 Nonchat servers You CAN chat on Nonchat servers.
