How to measure cartier love bracelet size. How to measure cartier bracelet size. How to know cartier bracelet size. Do cartier bracelets come in different sizes. Cartier juste un clou bracelet size guide. How to find cartier bracelet size.

If you have been wanting a Love bracelet of your own, but are unsure about what size to get, we have created the ultimate Love bracelet sizing guide. One of Cartier's most iconic designs is undeniably the Cartier Love bracelet. For decades, Cartier's Love bracelets have been the must have accessory for luxury jewelry lovers. If you have been wanting a Love bracelet of your own, but are unsure about what Cartier Love bracelet size to get, we have created the ultimate Cartier Love bracelet sizing guide. Keep reading as our luxury jewelry experts demystify Love bracelet sizes so you can confidently buy your perfectly sized bracelet. How Are Cartier Love Bracelets Sized? Understanding Cartier Love bracelets sizes is an important part of buying a Love bracelet. Cartier sizes their bracelets in centimeters, from sizes 15cm to 21cm. Any sizes that fall out of this range are specialty orders. How To Find Your Cartier Love Bracelet Size To find the perfect Cartier Love bracelet size for you, we have created a printable sizer guide so that you can easily and accurately measure your wrist. If your wrist is a half size, such as 15.5cm, round up to 16cm. After you use the Cartier Love bracelet sizer to find your wrist's size, you need to decide if you want a tight or loose fitting Love bracelet. For a tight fit, add one centimeter to your wrist size and for a loose fit, add two centimeters. How To Use The Cartier Love Bracelet Size Guide Before printing out the wrist sizer, make sure that you are printing onto a standard 8.5 by 11 page, with "page scaling" set to "none" and the PDF set at 100%. To confirm the accuracy of the sizer, use a ruler to see if the two-inch sample is set to scale, if it is not then the sizing will be off. Find your Love Bracelet Size In 6 Simple Steps: Cut out the Cartier Love bracelet wrist sizer. Cut out a small line in the wrist sizer where it says, "cut here." Place the pointed end of the wrist sizer into the cut you made at the opposite end. Gently tighten the sizer until it comfortably fits around your wrist but is not so tight that it presses into your skin. The number that the arrow points to is your wrist size. If you have a half size, such as 15.5cm, round up to 16cm. Depending on how you want your Love bracelet to fit, add 1cm for a tight fit and 2cm for a looser fit. Shop Pre-Owned Cartier Bracelets What is a Cartier Love bracelet? The Cartier LOVE bracelet was invented in New York City in 1969 by Italian-born American jewelry designer Aldo Cipullo. The story behind the Cartier Love bracelet (or bangle more specifically) is fascinating. A Cartier Love bangle doesn't open without a screwdriver (they all come with one). And, it can't be put on without opening it up, unlike normal bangles which are wide enough to slip on a wrist without opening. The Love bracelet has to do with security of one's relationship. The thought behind it is, if you offer the Love bracelet to your significant other, you are "locking her in" for the long run. The screw motifs are a wonderful touch to further emphasize the point. It's not surprising that this passionate piece of jewelry has become an iconic and timeless tribute to romance. It's absolutely gorgeous. Love bracelets are an ideal oval shape, and they are unquestionably elegant. They come in yellow gold, white gold, or pink gold and you have the option for studded diamonds as well. Famous celebrities love the LOVE bracelet and this has further boosted it to become the most coveted bracelet for women around the world. If you are looking to buy a Cartier Love bracelet, one of the most important things to consider is SIZE. In this article, we will provide you with everything you need to know about Cartier Love bracelet sizes. This is the ultimate guide to learning about and choosing the perfect Cartier Love bangle size. Cartier Love Bracelet Small vs Regular Version First, there are two types of Cartier Love bracelets - The Love Bracelet (regular) and Love Bracelet Small model. Both the Love Bracelet and Love Bracelet Small come in 18K Yellow, White and Pink Gold and they have the option for studded diamonds. Which is better, Cartier Love Bracelet Thick vs Thin? There are a few differences between the Love Bracelet Regular and Small version. The Small is thinner. And if you get the diamond studded version, it has 10 brilliant-cut diamonds totaling 0.21 carats. The Regular is of course thicker. And if you get the diamond studded version, it has 4 brilliant-cut diamonds totaling 0.42 carat All bracelets are sold with a screwdriver. The differences have nothing to do with the size of the circumference, i.e. wrist size. So, what about wrist sizes? Do Cartier love bracelets come in different sizes? Of course! Here it is... Cartier Love Bracelet Sizes Both the small and the regular Love Bracelet come in 7 different sizes: 15 cm 16 cm 17 cm 18 cm 19 cm 20 cm 21 cm The same sizes apply to any variation of

the Love bracelet. All regular Cartier Love Bracelets are 6.2mm wide and 2mm thick. What if I need a smaller or larger Cartier Love Bracelet Size? If you need a size that is above 21cm or below 15cm you can ask a retailer for a special size. Retailers like Diamonds By Raymond Lee can provide sizes based on customer's requests. How do you measure your wrist for a Cartier Love bracelet? There are two ways to determine your Cartier Love bracelet size. We recommend using the first method below. Measure your wrist You can use either a tape measure or you can download and print the Cartier Wrist Sizer. Cartier Wrist Sizer (best option) Note: If you use the Cartier Wrist Sizer above, before printing, be sure the "Page Scaling" option is set to "None" in the dialogue box. Also, the Cartier Wrist Sizer needs to be printed on full-size A4 paper. Follow the instructions and make a note of your wrist size. Instructions: Cut out the wrist sizer from the A4 paper carefully. Cut a small line where it says to cut on the wrist sizer. Curl the wrist sizer into a circle and insert the pointed end through the small opening that you just cut. Place your hand through the wrist sizer and delicately pull the pointed end that's between the slit until the wrist sizer is encircling your wrist comfortably. It should be just tight enough that it measures your wrist accurately but not too tight that it presses in on your skin. Also, it should be measured around your wrist bone, which will be the highest point of your wrist. The number that is aligned with the arrow is your wrist size. If the measurement is between two sizes, use the larger size if you have any doubts (we mentioned this further above). However, take this added .5cm into consideration when adding the "1-2cm for Cartier recommended fits (tight, exact, loose)". Cartier is a European company so all measurements of Love bracelets are in centimeters. Tape Measure Use a tape measure. Wrap the tape measure around the wrist on which you plan to wear your Cartier bracelet. Make a note of the number at the point where the tape meets the 0. REMEMBER To ensure the bracelet fits comfortably, add 1.5 cm to your wrist measurement. From here, you can add or subtract half a centimeter if you'd like, based on your preference. Cartier Love Bracelet Size Guide Sizing a Cartier Love bracelet is a bit trickier than it sounds. You will see this with a simple Google search or looking around on forums. Women are always asking which size should they get and "how should a Cartier Love bracelet fit?" The difficulty in choosing a size is due to the nature of this iconic design. It's quite different than other bracelets and bangles. Thankfully, Cartier has given a precise answer to this question, and we are here to make it even simpler. How Should a Cartier Love Bracelet Fit on my Wrist? Here are two simple steps to finding the right size Cartier Love bracelet for your (or your loved ones) wrist. Step 1: Measure the wrist that will be wearing the Love bracelet. Step 2: Decide on how you want the Love bracelet to fit - tight, regular, or loose. Tight fit - If you want the Love bracelet to fit tight, then add 1 cm to the wrist measurement. Regular fit (exact fit) - If you want the Love bracelet to fit regular (exact fit), then add 1.5 cm to the wrist measurement. Loose fit - If you want the Love bracelet to fit looser, then add 2 cm to the wrist measurement. And that's it! By following this simple 2 step guide, you can't go wrong.
